The **Value of Production in Philippine Agriculture and Fisheries**
is available in electronic format (Excel/Word/PDF).

FOREWORD

The Philippine Statistics Authority (PSA) releases the First Quarter 2023 Value of Production in Philippine Agriculture and Fisheries.

The report covers all agricultural commodities, highlighting 22 commodities for crops, nine commodities for livestock and poultry, and 20 commodities for fisheries. It presents the value of agricultural production at constant 2018 prices and at current prices.

PSA welcomes comments and suggestions from its data users, clients, and stakeholders for the improvement of this report.

TECHNICAL NOTES ON THE PREPARATION OF VALUE OF PRODUCTION IN PHILIPPINE AGRICULTURE AND FISHERIES REPORT

The Value of Production in Philippine Agriculture and Fisheries (formerly known as Performance of Philippine Agriculture) report presents the accomplishments of agriculture and fisheries during a particular reference period. The value of production is at constant 2018 prices and at current prices. The valuation is also done by commodity group (crops, livestock and poultry, and fisheries). These serve as inputs in the estimation of Gross Value Added (GVA) in agriculture and fishing.

The value of production in agriculture and fisheries covers all agricultural commodities, highlighting 22 commodities for crops, nine commodities for livestock and poultry, and 20 commodities for fisheries.

A. Sources of Basic Data

The generation of the value of production requires data on volume of production and farmgate prices. These data are sourced from the following PSA surveys and administrative-based records from other government agencies:

Variable	Source
1. Volume of Production by commodity	
a. Crops	Palay Production Survey (PPS) Corn Production Survey (CPS) Crops Production Survey (CrPS)
b. Livestock and Poultry by commodity	Backyard Livestock and Poultry Survey (BLPS) Commercial Livestock and Poultry Survey (CLPS)
c. Fisheries	Quarterly Municipal Fisheries Survey (QMFS) Quarterly Inland Fisheries Survey (QIFS) Quarterly Commercial Fisheries Survey (QCFS) Quarterly Aquaculture Survey (QAqS)
2. Farmgate Prices	
a. Crops	Farm Prices Survey (FPS) Palay Production Survey (PPS)
b. Livestock and Poultry	BLPS CLPS
c. Fisheries	QMFS QIFS QCFS QAqS
3. Administrative Data	
a. Volume of Production of Centrifugal Sugar and Raw Sugar	Sugar Regulatory Administration (SRA)
b. Dairy Production and Price for Goat and Cattle	National Dairy Authority (NDA)
c. Dairy Production and Price for Carabao	Philippine Carabao Center (PCC)
d. Volume and Value of Commercial Fish Unloadings	Philippine Fisheries Development Authority (PFDA), Local Government Units (LGUs), and Privately Managed Landing Centers
e. Volume and Value of Municipal Fish Unloadings	Philippine Fisheries Development Authority (PFDA) and Local Government Units (LGUs)

B. Estimation Procedure

The valuation of agriculture and fisheries production is prepared quarterly. It is done as follows:

At Constant 2018 Prices

Valuation at constant prices is done by multiplying the volume of production of each commodity by the 2018 average farmgate price.

Formula:

$$VP_o = Q_t \times FGP_o$$

Where:

VP_o = Value of production at constant prices;

Q_t = Volume of production for the current period; and

FGP_o = Farmgate price at constant 2018 prices;

At Current Prices

Valuation at current prices is done by multiplying the volume of production of each commodity by the average farmgate price during the reference year.

Formula:

$$VP_t = Q_t \times FGP_t$$

Where:

VP_t = Value of production at current prices;

Q_t = Volume of production for the current period; and

FGP_t = Farmgate price at current prices;

The average prices of corn, coconut, banana, mango, tobacco, coffee, and onion are weighted using varietal classification, while cassava price is weighted by its use (i.e., food and industrial).

For sugarcane, there is no available data on sugarcane price. The PSA's Farm Prices Survey (FPS) generates prices of centrifugal sugar per kilogram while the Sugar Regulatory Administration (SRA) releases data on volume of centrifugal sugar and raw sugar. Thus, the farmgate price of sugarcane was derived by multiplying the volume of raw sugar by the price of centrifugal sugar. The resulting value is multiplied by 0.65 to indicate that 65 percent of the total value of raw sugar produced is the value of the

product of agriculture. This is based on the prevailing 65-35 planter-miller sharing system. The total value credited to agriculture was divided to the total volume of sugarcane to derive the average price of sugarcane.

In the case of “other crops”, a set of indicator commodities was established. These indicator commodities are used to get the weighted price for “other crops”. It is derived by dividing total value of production by the total volume of production of the indicator commodities. This weighted price is used in computing the value of “other crops” production.

The prices of livestock and poultry are weighted using the type of farm (i.e., commercial and backyard).

For fisheries commodities, the prices are derived from the value of production at current prices divided by the volume of production of the reference year.

C. Definitions

Value of Production at Constant Prices – refers to valuation of transactions, wherein the influence of price changes from the base year to the current year has been removed.

Value of Production at Current Prices – is the value based on prices during the reference year.

AGRICULTURE AND
FISHERIES**

VALUE OF PRODUCTION IN PHILIPPINE AGRICULTURE AND FISHERIES
FIRST QUARTER 2023

HIGHLIGHTS

Figure 1. Value of Production in Agriculture and Fisheries at Constant 2018 Prices
Annual Growth Rates (%)
Q1 2022 and Q1 2023

Source: Philippine Statistics Authority

The value of **production in agriculture and fisheries at constant 2018 prices** reached PhP 428.69 billion, indicating a 2.1 percent annual increment during the first quarter of 2023. Higher value of production was noted for crops, livestock, poultry, and fisheries compared with their values in the same quarter of the previous year. At current prices, production in agriculture and fisheries was valued at PhP 569.94 billion, which indicates a 14.1 percent annual expansion from its record in the same quarter of the previous year. (Figure 1, and Tables 1a, 2a, 4a, and 5a)

At constant 2018 prices, the value of **crop** production was recorded at PhP 247.77 billion, accounting for more than half (57.8%) of the total value of production of agriculture and fisheries. Crops value of production increased by 1.7 percent annually during the reference period. Improvements were noted in the value of palay and corn productions at 5.2 percent and 3.2 percent, respectively. Similarly, increases were noted for the following crop commodities:

- a. tobacco, 14.4 percent;
- b. onion, 6.4 percent;
- c. cassava, 5.2 percent;
- d. cabbage, 5.2 percent;
- e. abaca, 3.2 percent;
- f. tomato, 3.0 percent;
- g. mango, 2.0 percent;

- h. coconut, 1.6 percent;
- i. coffee, 1.3 percent;
- j. ampalaya, 0.8 percent; and
- k. banana, 0.4 percent.

In contrast, reductions in the value of production were registered for the following crops:

- a. sugarcane, -17.0 percent;
- b. sweet potato, -7.5 percent;
- c. rubber, -5.3 percent;
- d. potato, -4.4 percent;
- e. pineapple, -3.8 percent;
- f. mongo, -1.6 percent;
- g. cacao, -1.4 percent;
- h. eggplant, -1.3 percent; and
- i. calamansi, -0.9 percent.

On the other hand, the value of “other crops” production inched up by 0.5 percent.

At current prices, the value of crop production amounted to PhP 306.50 billion, which represents a 14.0 percent increase from the same quarter of last year. (Tables 1b, 2b, 3b, 4b, and 5b)

Livestock, which accounted for 14.4 percent or PhP 61.66 billion of the total value of agriculture and fisheries production at constant 2018 prices, expanded by 4.1 percent during the period. Increments were noted for hog and cattle at 5.1 percent and 1.9 percent, respectively. Meanwhile, the value of production went down for dairy by -11.4 percent, goat by -3.6 percent, and carabao by -1.2 percent.

At current prices, the value of livestock production amounted to PhP 92.86 billion, which increased by 3.2 percent in the first quarter of 2023. (Tables 1c, 2c, 3c, 4c, and 5c)

The value of **poultry** production at PhP 64.95 billion recorded a 3.2 percent growth at constant 2018 prices in the first quarter of 2023. It shared 15.1 percent to the total value of production in agriculture and fisheries. Increases in the value of production were noted for duck eggs at 3.8 percent, chicken at 3.3 percent, and chicken eggs at 2.8 percent. Meanwhile, the value of duck production was down by -0.3 percent.

At current prices, the value of poultry production amounted to PhP 88.90 billion, an increase of 18.3 percent from the same quarter record of the previous year. (Tables 1c, 2c, 3c, 4c, and 5c)

The value of **fisheries** production at constant 2018 prices grew by 0.3 percent in the first quarter of 2023. It contributed PhP 54.32 billion or 12.7 percent share to the total

value of production in agriculture and fisheries. Two-digit increases in the value of production were recorded for squid (pusit) at 18.2 percent, tilapia at 10.8 percent, and blue crab (alimasag) at 10.5 percent. Moreover, increments were recorded for the following species:

- a. milkfish (bangus), 6.6 percent;
- b. big-eyed scad (matangbaka), 5.9 percent;
- c. yellowfin tuna (tambakol/bariles), 5.0 percent;
- d. grouper (lapu-lapu), 4.1 percent; and
- e. skipjack (gulyasan), 1.5 percent.

On the other hand, decreases in the value of production were noted for the following:

- a. mudcrab (alimango), -37.6 percent;
- b. bigeye tuna (tambakol/bariles), -35.0 percent;
- c. frigate tuna (tulingan), -29.0 percent;
- d. slipmouth (sapsap), -24.8 percent;
- e. tiger prawn (sugpo), -24.2 percent;
- f. threadfin bream (bisugo), -23.0 percent;
- g. Indian mackerel (alumahan), -21.2 percent;
- h. cavalla (talakitok), -15.8 percent;
- i. roundscad (galunggong), -13.5 percent;
- j. fimbriated Sardines (tunsoy), -11.5 percent; and
- k. *Bali sardinella* (tamban), -0.1 percent.

Seaweed dropped by -1.0 percent in the first quarter of 2023. Collectively, the value of production for “Other fisheries” expanded by 19.5 percent.

At current prices, the value of fisheries production at PhP 81.68 billion went up by 25.1 percent from the first quarter of last year’s record. (Tables 1d, 2d, 3d, 4d, and 5d)
